SUMMARY

Front-end Developer from New Delhi, India, skilled in JavaScript, HTML, CSS, React, and Django. Recent B.Tech graduate in Electronics and Communication with an AI-ML focus. Experience includes internships at Mekr Technologies and Tech Mahindra Foundation, developing applications like Weather App and E-commerce site. Proficient in creating responsive, user-centric web applications. Passionate about integrating AI/ML into front-end development. Seeking a role to apply technical skills and creativity in innovative digital solutions.

EXPERIENCE

Founders Office Intern   Jan '24 — May '24
Mekr Technologies Pvt. Ltd.   Kundali, India
- Worked as a Process Engineer intern, creating various documents and suggesting changes for the main website. Developed an Inventory Management app for the store.

Technical Intern   Aug '22 — Sep '22
Novatta Innovative Solution pvt. lmt.   Gurugram, India
- Worked as a technical intern, learning about the hardware and software of mobile phones. Gained skills in troubleshooting and using quality check software to ensure proper functionality.

Web-Development Intern   Jan '21 — Feb '21
Tech Mahindra Foundation   New Delhi, India
- Created a website for maintaining student attendance records, allowing teachers and students to track attendance and assignment submissions.

SKILLS

EDUCATION

Electronics & Communication Engineering in Bachelor of Technology, Deenbandhu Chhotu Ram   Aug '21 — Jul '24
University of Science and Technology (GPA: 7.45)   Murthal, India
- Co-coordinated events such as **Courtroom 3.0** and **Inception.**
- Participated in university-level events like **Short-Circuit** and **Devholic**, securing **2nd** place. Also co-coordinated **Technova 2k22**.

PROJECTS

GYM Landing page Link
- Designed and developed a GYM landing page using HTML, CSS, and JavaScript. This project helped in gaining a clear understanding of front-end development concepts, including responsive design, layout structuring, and interactive features.

E-ComM Link
- Developed an e-commerce site using the React framework. The site allows users to browse and purchase various products, providing a seamless and interactive shopping experience.

Typing Speed Test Link
- Developed a Typing Speed Test game for fun using HTML, CSS, and JavaScript.

Employee Management System Link   Present
- Present Working on Full Stack Project with the help of Django framework.
